Frogs - Museum in a Box at Dunedoo

[Back to search](#)

Frogs live on all the large land masses of the world, except Antarctica and Greenland. They are most common in the warm, wet tropics, but from 17 - 23 August you will find them at Dunedoo Library!

'Frogs - Museum in a Box' is part of an exciting outreach program by Australian Museum. The box contains real museum specimens, cast fossils, dioramas, and fact sheets, and will be available at Dunedoo Library all week. Drop in to discover everything there is to know about Australian frogs!

This program is made possible by Dunedoo Coolah Landcare.

Image: The hands of different frog species can reveal a lot about their lives.
